GANG OF FOUR
Burglars broke a window and entered the home of Samuel F. Whippersnapper, a coin collector, and rifled his collection. He grappled with them and was shot and fatally wounded in the course of the struggle. He had time, however, to call the police, who stopped a car with these four suspects in it and brought them to the station house, together with the coat, which had some of the stolen coins in a pocket.

Whippersnapper died clutching the button which is shown. The police were satisfied that the other objects sketched, which were found at Whippersnapper's, belonged to the burglars. From the above facts and an examination of the evidence and the four suspects, can you decide who shot Whippersnapper?
